

The following Plishner Weekend Update was provided by Ed Corn and Steve Plock.

DSES members, Ed Corn, Steve Plock, Dr. Richard Russel, David Molter, Gary Agranat, and Myron Babcock made a day work trip to the site on Saturday, May 21, 2016.

A group of 12 visitors from the Hammn' Sams RV club visited the site Saturday afternoon. This group, all amateur radio operators, traveled 35 miles north from their weekend campout at the John Martin Reservoir camp ground on the Arkansas River to make this visit. Myron and Bob Sayers, members of this RV group, made this invitation. Dr. Richard Russel provided an impromptu briefing to the visitors and Steve Plock assisted 3 members to view the dish pedestal as high as possible without going up into the dish.
